

BLUE RIDGE Virginia Art Education Association

BRVAEA yearly calendar

New Officers to be announced at State

Thinking back at the last 4 years, they have gone so very, very fast. We have had some great professional development opportunities, regional art shows and excursions that keep getting better and better. I will only have one more newsletter article to write for the state and region before my terms ends in January. I have served two terms as president and two terms before as Vice President and have loved every minute of it. I began, in the region as newsletter editor in 1993. We have come along way from the copy machine and snail mail to professional looking electronic newsletter documents. I was still newsletter editor for the transition.

Conference
